

## Hazardous Materials Security Rule HM - 232

The Research and Special Programs Administration (RSPA) has issued a rule which will implement security requirements for the transportation of certain Hazardous Materials. As I am sure you are aware, the components of the Security Plan are as follows:

- **Personnel Security** – Measures set up to confirm information supplied from applicants qualified to handle hazardous materials, but still remaining within the confines of applicable federal and state employment practices, contract law and individual privacy.
- **Unauthorized Access** – Measures set up to address assessed risks of an authorized Individual gaining access to Hazardous Materials or transport conveyances being Prepared for transportation.
- **Enroute Security** – Measures set up to access risks surrounding the shipment of hazardous materials from origin to destination, including shipments stored incidental to movement.

By copy of the correspondence, I hereby verify that our company does comply with all of the applicable requirements of the Hazardous Materials Rule HM – 232.

A handwritten signature in blue ink that reads "Allen H. Motter".
